Up to 3 slave PDUs can be connected to a PDU managed. Thanks to the compact PDU, any IT rack may be easily equipped with a professional power distribution system. With the TS IT rack, assembly is even tool-free. The compact design allows simple assembly. The installed bistable relays display keep energy consumption low. Redundant power is supplied from all phases. PDU offers extensive management and monitoring functions. A measuring accuracy of up to 1 % guarantees reliability.
