

Outdoor IP66 Rated Wall Enclosures

OSA Outdoor enclosures for fibre optic termination have to be robust and weather proof to ensure long term operation. Our range of outdoor fibre termination enclosures offer an excellent IP66 ingress protection rating making them impervious to dust and water contamination in standard use. The solid powder coated steel construction is fully seam welded and suitable for many harsh environments

KEY FEATURES

- IP66 Rated for excellent environmental dust and water protection in challenging and harsh environments
- Quality powder coated and seam welded steel construction
- The enclosures compact size makes them ideal for terminating optical fibres in confined spaces
- Multiple cable entries, suitable for glanded cable retention, allow for a variety of incoming cable configurations
- Snap in adapter panels allow cabinets to be configured to support a range of connector styles
- Fixed earth connection screws included
- Professional commercial appearance makes the wall mount enclosure perfectly suited to office, data centre or telecommunications hubs

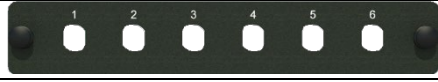

Applications

- Outdoor fibre termination, patching & splicing
- Mine sites, roadside and harsh environments
- Industrial and infrastructure fibre networks
- Remote building networks (FTTx)
