Auxiliary Tray with Lid Sensor

Tray for mounting of additional parts into the HAN E10

Features

- Auxiliary Tray with sensor for Lid opening
- Hinge for easier access to parts below as Fibre Tray and termination of Hybrid Cable to PCB.
- Dedicated area with fastenings for an alarm card Sentrion S4 DUO (Third-party source).
- Prepared with mounting holes for local DC/DC converter 110 to 24V
- Easy mount in HAN-E10 boxes (HNCD520242/1) by two screws
- Cable strain relief

Application

The auxiliary tray is an optimized carrier for mounting added parts for security system into the E10 box of Hexatronics InOne. Equiped with a sensor for lid opening, prepared for local DC/DC converter for Auxiliary electronics.
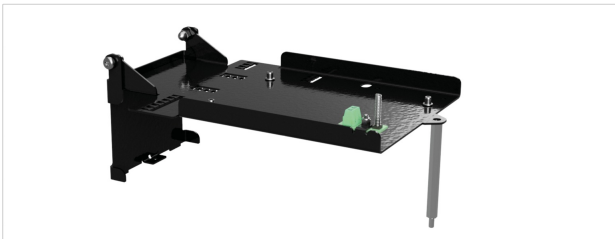

Design

The Auxiliary Tray with Hinge and Lid are black powder coated sheet metalparts. Gives a robust design for added electronic parts as the included lid sensor. Optional DC/DC converter 110 to 24V 60W as well as Sentrion S4 Duo alarm card from Third party Source.
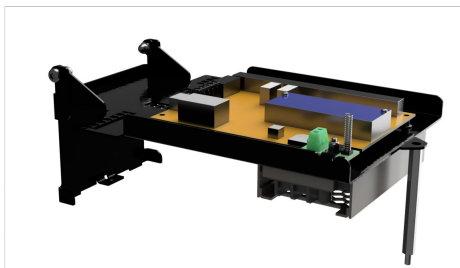

Technical Information

Product Color	Black

Technical Details

Tray with Lidsensor (without cover plate)

Tray with optional DC/DC converter 60W mounted on bottom and Sentrion alarm card on top
