601 FIBRE WALL ENCLOSURE

Features and Benefits

The Molex Premise Networks 601 Fibre series wall mount system interface products are compact units for optical fibre. The product has the capacity to accommodate 6, 8 12 or 24 ports depending on the adapter type.

The 601 fibre interface units are made of white rugged plastic and have a low profile, yet provide the proper internal fibre management to ensure the integrity of the optical network. Sufficient storage room for the fibre service loop makes installation easy. There is also provision for a user supplied seal for added security.

The unit is compatible for splicing and direct terminations.

The identification card and label supplied in the accessory kit, enables the user to trace their fibre throughout the system.

- Compact unit. 184 x 127 x 38mm
- Up to 24 Ports
- Accepts ST®, Duplex SC, MTP & MTRJ
- Multimode & Singlemode configuration
